

Dear Applicant:

Thank you for your interest in becoming or maintaining your status as an approved continuing education provider with the California Tax Education Council (CTEC). As an approved provider your course(s) may be offered to several thousand CTEC Registered Tax Preparers (CRTPs).

Once approved, a provider may develop and offer additional courses, each of which must meet the same CTEC education standards and requirements that was required of the initial course submitted. To maintain CTEC standards, periodic reviews and audits are conducted. Under CP14, periodic reviews of approved providers are conducted once every three years. Audits are conducted in accordance with CP28, under which a CTEC curriculum reviewer, acting as a student, registers for and takes the course. Courses are selected for audit in accordance with the provisions of CP28. Failure to maintain CTEC education standards and requirements will result in a loss of approval as a CTEC provider. Should the approved provider that you have purchased the course from fail to pass a periodic review or audit, approved status will be revoked for all approved curriculum providers offering that course or using that course material. All affected curriculum providers will be notified of the revocation of their approved curriculum provider status under the procedures outlined in CP14.03.6.

- Providers can be approved to provide two types of education, qualifying education (QE) and continuing education (CE). A separate application and approval is required for each type of education. This application is for CE approval of a purchased course.
- All course materials and administrative paperwork **must be submitted electronically**. Provider fee along with CE Provider Application can be mailed to: CTEC, PO Box 2890, Sacramento, CA 95812, Attn: Tabitha Bolkish.

Please submit your application via e-mail to Tabitha Bolkish tbolkish@ctec.org

<u>Administrative Review</u>: Once received, the application will be logged in for date of receipt, and an initial administrative review will be performed to ensure that all required components of the application have been included.
